

PHOENIX LT

An advanced AI-enabled UAV system designed for long-range precision strikes with minimal operator input and maximum mission impact

PHOENIX LT

The Phoenix LT is a next-generation long-range UAV platform that brings cruise-missile technology into an ultra-simple operational package. Built for precision strike and persistent missions, it pairs an elastic Target Management System (TMS) with an onboard AI computer and open-access tools, allowing operators to train and adapt the system to new operational scenarios—maximizing mission fit and tactical advantage.

If your mission profile demands custom configurations or engineering adaptations, our team stands ready to deliver. Contact our sales department to discuss tailored solutions and receive a dedicated NRE (Non-Recurring Engineering) proposal designed around your specific operational needs.

PERFORMANCE

MAX FLIGHT TIME	9 HOURS
MAX SPEED (VMAX)	122 KNOTS (60 M/S)
OPTIMIZED CRUISE SPEED (VR)	76 KNOTS (38 M/S)
STALL SPEED (VSTALL)	98 KNOTS (50 M/S)
SERVICE CEILING	8,000 FT. ASL
OPTIMIZED OPERATIONAL ALT.	2,400 FT. ASL
MAX PITCH ANGLE (FLIGHT)	15 DEGREES
MAX PITCH ANGLE (T.GUIDANCE)	70 DEGREES
MIN. TURN RADIUS	450 METERS
OPTIMIZED CLIMB RATE	5 M/S
OPERATING TEMPERATURE	-20°C TO +50°C

DIMENSIONS

WINGSPAN	2,500 MM
LENGTH	3,500 MM
EMPTY WEIGHT (NO FUEL NO WH)	93 KG.
MAX TAKEOFF WEIGHT	250 KG.
MAX PAYLOAD	50 KG.
FUEL CAPACITY	107L
ROCKET BOOSTER WEIGHT	5.3 KG
BOX DIMENSIONS (FOLDED)	2,800MM X 1,600MM X 1,950MM
SHIPPING WEIGHT	225 KG.

PROPULSION

DISPLACEMENT	550CC
CONFIGURATION	4 CYLINDERS BOXER CONFIG.
FUEL	MOGAS 95
ALTERNATOR OUTPUT	28V 500W
START-UP	ELECTRONIC BUILT-IN STARTER
RPM RANGE	1,800-7,500 RPM
MAX. POWER	50 BHP/7,500 RPM
IGNITION SYSTEM	DC CDI IGNITION SYSTEM
COOLING METHOD	AIR COOLED
PROPELLER SIZE	2824X3418

NAVIGATION

SOURCE	GPS, GLONASS, GALILEO, BEIDOU
TYPE	HX4-06213, ZED F9P 02B
EW RESILIENCE	OPTIONAL VISUAL NAV AND ADAPTIVE ANTENNA (CONTACT SALES)
RTK	OPTIONAL

COMMUNICATION

PRIMARY COMM. METHOD	2.4G WIFI 100MWH
TACTICAL COMM. (OPTIONAL)	C-BAND 5.8GHZ
MISSION COMM. (OPTIONAL)	LTE

ROCKET LAUNCHER

POWER	14KNS
BURNING TIME	APPROX 2.3 SEC.
RELEASE MECHANISM	MECHANICAL AUTOMATIC DROP-OFF
WEIGHT	2.5 KG.
